

packing instructions

- 1: Start by loading instructions, extra parts, etc. in the compartment at the bottom of the shipping case.
- 2: Continue by loading the arched and longest frame pieces in a single layer on the bottom of the case as shown. Next load the smaller frame pieces. Electrical cords may also be loaded at this time. Lay a single cardboard insert over the entire layer, being sure it lays as flat as possible.
- 3: Next load longer frame pieces and the counter tops on top of the cardboard insert. Cover this layer with another cardboard insert.
- 4: Finally load the remaining long frame pieces, along with the fabric graphic, lights (in shipping tubes), spare Velcro®, and other miscellaneous parts.
