

# FLEXPO™ maverick20™

Full Graphic Fabric™

## stylish, flexible, ultra-portable...

The FLEXPO™ Maverick 20 is a striking 20 foot display (14.75' wide) that is both functional and efficient with two large integrated counters and lots of hidden storage. Add a rear graphic and use as the centerpiece of an island booth. The lightweight and compact disassembled unit reduces your freight costs and the no-tool design will eliminate labor costs since the entire unit can be setup in less than 30 minutes. And because the Maverick 20 is part of the FLEXPO line, the frame is easily re-configurable into different displays!

## features

- Accommodates RasterPrint™ or Lexan® Digital Graphics
- No-tool assembly
- Quick, intuitive setup
- Frame re-configurable into alternate displays
- Extremely compact shipping
- Lightweight

Optional Lighting
