

screen print preflight specifications

General Info

Screen printing is ideal for **complex logos, critical ink match and large orders**. Most every image can be screen printed if the art is supplied in the correct format. If you are using dot patterns or gradations, they will be printed at 35 line screen. Some combinations of certain ink colors on our particular fabric colors require the use of a white ink undercoat.

Please call to determine if this will be required for your order. A Pantone Matching System (PMS) number will be required for specifying ink color. If you do not have this, you may send us a brochure or business card for us to match.

Order Info

Once we have determined that your artwork is usable for this process and have received a complete purchase order from you, we will enter the order into our system. Within 1 business day you will receive your layout via email, orders will ship within 5 business days from receipt of your approved layout. For larger quantities call your dealer sales rep for current production schedule. Email address for layouts & tracking information (UPS ONLY) should be provided on your purchase order. Rush orders may be accommodated depending on our production schedule (NO RUSH CHARGES APPLY).

Please Proof this Layout carefully and fax it back to us within 24 hours to keep your assigned ship date. Once you sign the layout and fax it to us your order is in production. We will not begin your order until layout is approved. If you have not received a layout in the time allotted PLEASE call to confirm order.

Can you scan artwork for me?

Call for details

Do you have files that we can use?

Supply native FreeHand or Illustrator files. FreeHand and Illustrator create vector (line) based images as opposed to bitmapped (dot) based images. Xpress® Scan can only use the vector based type of file. A bitmapped image that has been "placed" or "imported" into FreeHand or Illustrator will NOT work for us. We work on a Macintosh platform. We will accept files from "PC platform" but cannot guarantee that they will convert to our platform. If you do not have FreeHand or Illustrator, save or export your file as an .ai or .eps file and we will determine if we can use it.

Make sure to change text to outlines: FreeHand: from the Edit menu, pull down to select, then over to all, then from the Text menu, pull down to convert to paths. Illustrator: from the Select menu, pull down to all, then from the type menu, pull down to create outlines.

Is your art production ready?

This means that we do not have to make ANY changes or additions. This includes even small changes such as typesetting, or putting files together. If changes are required, the charge will be \$99.00 per hour, with a one hour minimum.

What type of disk is acceptable?

We can accept 100MB Zip, CD-ROM or DVD

How do I get artwork to you?

Files that are smaller than 10MB, can be sent to - art@radiusdp.com

Files that are larger than 10MB, can be uploaded to our FTP Site <ftp.radiusdp.com>

Make sure to label your file with the name of the company that will be ordering the file from us. If this info is not included, your order will be delayed.
